Price List

Thank you for your interest in GSES and/or Data for Good!

We are delighted to share
the pricing list, which contains information about our services and modules.

About GSES

At GSES, our mission is to provide a universal and comprehensive platform that empowers organisations worldwide to measure, manage, and elevate their sustainability performance. We are committed to delivering a standardised language for sustainability, facilitating transparency, and fostering a global community dedicated to verifiable positive environmental and social impact.

Our vision at GSES is to be the leading force in transforming businesses into sustainable enterprises. We aim to create a world where organisations seamlessly integrate sustainability into their core operations, utilising our platform to not only meet but exceed global sustainability standards. GSES envisions a future where every decision-maker has the tools and insights to contribute significantly to a more sustainable and resilient world, driving positive change for generations to come.

How it works

Explore our platform with a range of modules tailored to meet your specific needs. Whether you opt for a singular module or a combination of multiple modules, our platform offers flexibility to suit your preferences. Each module is designed with distinct elements, ensuring a comprehensive and customised experience for your unique requirements.

There is also an option to unlock the full potential of our platform by opting for our Full or Pro membership, which grants you access to multiple modules.

Additional Details

* In the supply chain module, when your organisation extends invitations to its suppliers, it is kindly requested that suppliers cover the cost of their own membership/module.

*The prices per year differ depending on whether you have 1,2, or 3 year subscription plan. The 3-year subscription is most advantageous is a couple of ways:

- Cost savings - You will save costs as 1 year = 125% per year, 2 years = 112,5% per year, and 3 years = 100% per year.
- Long-term planning - Opting for a 3-year subscription plan may aligns with your organisation's long-term strategies, ensuring stability in essential services and operational planning.
- Tailored support/service - It signals a strong commitment to the platform. This commitment may result in better support and personalised service.
